

### Medray Appointed agents for SharpView®

We are delighted to announce that SharpView, Sweden, has appointed Medray as sole agent for their products in the Republic of Ireland. SharpView AB is the leading supplier of image optimisation software. The SharpView CT radiation dose reduction technology offers high diagnostic accuracy, increased patient safety and cost savings to customers within the healthcare sector.

***“Lower CT-dose by as much as 30-70% with preserved Image Quality”***

Computed Tomography (CT) has revolutionised diagnostics within healthcare and because of its effectiveness there has been a steady increase of its use. CT examinations however expose the patients to a larger radiation dose than comparable conventional x-ray examinations. Depending on examination type, SharpView's software technology makes it possible to lower the radiation dose by as much as between 30-70 percent, with preserved image quality.

### Medray will be attending the UKRC 2009 Exhibition

Visit our representatives on both the Visbion Stand and the SharpView Stand.

Visit Visbion, the supplier of world class image archive and display solutions on Stand Number 409 to discuss the range of products that will offer real cost and efficiency benefits.

Visit Sharpview who will be launching their product at UKRC where we will be available to demonstrate full dose and reduced dose images, and answer any questions you may have.

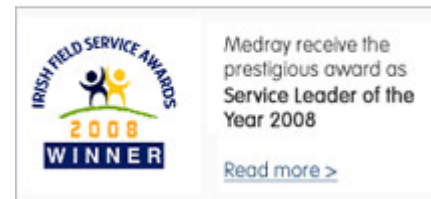

We look forward to seeing you there!

### Our New Website

We are pleased to announce the launch of our re-developed website which includes e-shopping. You will also find the industry specific tab buttons on the top of the home page to navigate you to your relevant section.

Be sure to keep [www.medray.ie](http://www.medray.ie) as one of your favourites!
